We highlight one of our outstanding students in each issue.

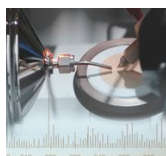

Making a Difference

The students and staff who receive awards at the annual Lee Dinner are winners in many ways, and are already making a difference. At the May, 2021 virtual awards ceremony, AirUCI was well represented, as we are most years. Take a look at our awardees and what it was that made them stand out among the many nominees.

Latest Research

AirUCI is proud to expand our research capability by welcoming 3 new faculty to our institute from 4 different departments — Earth System Science, Occupational and Environmental Medicine, and Chemical and Biomolecular Engineering with a joint professorship in Chemistry. All are exceptional and already have a history of collaborations with AirUCI.

Spotlight on Faculty

Donald Dabdub is one of the founding faculty of AirUCI but has served the UCI campus in many other ways that reach far beyond the lab. While his air pollution modeling is legendary, his leadership in campus-wide undergraduate education has provided a host of academic support services to the entire UCI undergraduate community.

News and Events

🌍 Anmarie Carlton has been selected for the [Revelle Fellowship](#) and will spend a year in the White House.

🌍 AirUCI will host the 2022 Informal Symposium on Kinetics and Photochemical Processes in the Atmosphere on the UCI campus in February or March. Details TBA.

Despite the pandemic limitations, AirUCI has continued to offer a number of virtual events and has made important news. For the latest, go to our [News page](#) and our [Events page](#).
